THE ATLANTA CONSTITUTION.

BY W. A. HEMPHILL & CO. | ATLANTA, GEORGIA, TUESDAY, APRIL 4, 1871. | VOLUME III---NUMBER 243

Evening Edition.

MONDAY, APRIL 3, 1871.

GEORGIA MATTERS.

A considerable force is at work on the Blue Ridge Road.

A terrific storm passed over our city on last Sunday afternoon. A number of houses were blown from their foundations and several frames entirely wrecked.—*Brunswick Appeal.*

After a lapse of about two months the branch line of the Skidaway and Seaboard Railroad to Burnside was completed last Thursday evening.—*Sav. Advertiser.*

Gov. Bullock has decided the contest for the offices of Tax Receiver and Clerk of the Superior Court for this county in favor of the Democratic contestants, Messrs. R. A. Benson and Henry King.—*Macon Telegraph.*

Corn is up finely, snap-beans, squashes, etc., are sufficiently advanced to make the mouth water, and some of our citizens are already bragging about the first green peas of the season.—*Cuthbert Appeal.*

The $200,000 Subscription Carried by 507 Majority.—Yesterday the people of Columbus voted on the question of subscribing $200,000 in bonds to the North and South Road—the one to connect Chattanooga with our city via Rome and LaGrange.—*Columbus Sun.*

Four new Churches are now nearly completed in Athens. The Oconee Street Methodist; the St. Mary's near the Factory; the Primitive Baptist, near Rock Spring, and the colored Baptist, near the Knox School. These, with the Churches already in existence, make ten good houses of worship in Athens.—*Athens Banner.*

Mr. Grouby had been intoxicated for several days, and during the time conducted himself as most drunken men do. On the evening before he left, he took offense at some fancied insult from the negro preacher, Gambell, and resented it by shooting him with a pistol, inflicting only a slight wound, from which we do not think he laid up a single day, or lost a single "preach." Mr. Grouby's object in leaving was, no doubt, to avoid arrest.—*Early County News.*

OUR WASHINGTON LETTER.

OUR GREAT GEORGIA CANAL—THE DAHLONEGA MINT BUILDING.

Special Correspondence of The Constitution.

WASHINGTON, March 30, 1871.

I quote from the official report of the Senate proceedings of yesterday, the following passages in relation to the Atlantic and Great Western Canal project:

"Mr. Hill—I ask the unanimous consent of the Senate to introduce a resolution with a view to its adoption. When the Senate shall hear it, I think there will be no objection to it. The resolution is as follows:

"Resolved, That the Secretary of War be, and he is hereby, requested to cause the Engineer Department of the United States to extend the survey of the Etowah River (already ordered) so as to embrace estimates for a canal connecting said river with the Ocmulgee River, with a view to opening a direct and unobstructed water communication between the waters of the Mississippi River and the Atlantic Ocean, and to report to the Senate.

I will state that the appropriation for this work has already been made, but that in the bill there is an omission to carry the work further than the Etowah river. The canal is to connect the waters of the Tennessee, and thereby of the Mississippi, with the waters of the Ocmulgee river in the State of Georgia; and this is to correct an omission in the bill. What I desire by the passage of this resolution is that the object of Congress in having this survey made shall not be defeated, since the appropriation is already made for the purpose; but that it shall be extended from one of the proposed termini to the other. I read from the river and harbor bill of the last session:

"For examination and survey of the Etowah river, from its mouth up to Cartersville, Ga."

And that is to connect with the waters of the Ocmulgee river, and the proposed canal which this survey includes would be defeated entirely unless it went on to the other terminus, to-wit: the Ocmulgee river. Under this resolution, if the Senate will allow it to be adopted, the whole scheme of survey will be carried out for which the appropriation is made. It does not propose to increase any appropriation, nor to involve any additional legislation, but merely to effectuate what has been adopted.

The Vice President—The Chair thinks that this legislation would probably require more than a Senate resolution, that it would require a bill; but the Senator from Georgia asks unanimous consent that the Senate consider at the present time the resolution which he has read.

Mr. Pomeroy—I think it interferes with our rule.

Mr. Hill—I do not think so. It does not propose to appropriate anything.

The Vice-President—The resolution will be open to objection after it shall have been reported from the desk. The Secretary will report the resolution.

The Chief Clerk read the resolution.

The Vice President—Does the Senator from Kansas object?

Mr. Hill—I hope not. The appropriation is made in the general act making appropriations for the repair, preservation, and completion of certain public works, etc., approved March 3, 1871, and this merely calls for a report back to us at the next session of Congress, or at some time. It makes no additional approation. It merely provide that the surveyor may carry out the object, which is a pure omission in the bill.

Mr. Pomeroy—If the appropriation is made, the Secretary of War can order this survey at his discretion. If he does not want to do it, I do not want to direct him to do it. I object to it.

The Vice President—The Senator from Kansas objects.

This morning Mr. Pomeroy withdrew his objection, and the resolution was adopted.

THE MINT BUILDING AT DAHLONEGA.

The following bill was introduced by Mr. Hill, and referred to the Committee on Public Buildings and Grounds. It was reported back by Mr. Morrill, of Vermont, with the following amendments, viz: strike out the words in [brackets] and insert the words printed in *italics*:

A bill authorizing the Secretary of the Treasury to convey the United States branch mint at Dahlonega, Georgia, to the trustees of the North Georgia Agricultural College for educational purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury be, and he is hereby, authorized and directed to convey to the trustees of the North Georgia Agricultural College, located in the town of Dahlonega, Georgia, the building known as the United States branch mint at Dahlonega, and the ten acres of land connected therewith, located on lot of land number nine hundred and forty-nine, in the twelfth district and first section of Lumpkin county; said conveyance to be made by the Secretary of the Treasury so soon as he is assured that said trustees have been properly incorporated by the laws of Georgia, and on the express condition that said building shall be used exclusively for educational purposes, [which may include, in addition to such branches as relate to agriculture, a bureau of mineralogy and the mechanic arts,] *and in conformity with the provisions of the act entitled "An act donating public lands to the several States and Territories which may provide colleges for the benefit of agriculture and the mechanic arts."*

The bill is now before the Senate, and will probably go over to the next session.

C. A. P.

☞ The Wilmington (N. C.) Journal corrects its statement, that Senator-elect Vance, has resigned, and announces that he still clings to the faint hope of admission to the Senate.

A volume on the "Physical Geography and Geology of the Valley of the Thames" will shortly be published by Professor Phillips, of Oxford University.

ASSOCIATED PRESS DISPATCHES

SUNDAY'S DISPATCHES.

WASHINGTON.

WASHINGTON, April 2.—The Treasurer sells two millions of gold each Wednesday, and buys three millions on the first and third Thursdays, and two millions on the second and fourth Thursdays.

The opposition to the Ku-Klux bill in its present shape is growing most ardent. The friends of the Ku-Klux legislation only hope to get a modified measure to the Senate by Wednesday.

NEW YORK.

NEW YORK, April 2.—The steamer Arcadia sailed yesterday for Havre with nearly $650,000 worth of arms and war material, including 1,800 cases of rifles for the French army.

The World's special from London says, Bismarck has informed Thiers that unless the indemnity is paid before the 15th instant, 80,000 Germans will enter Paris, suppress the revolution and remain until the money is all paid.

The cotton movement shows a further falling off in receipts of nearly 10,000 bales less than last week, and in the aggregate the smallest for any week since October last. Exports for the week very heavy and largely in excess of last year. The stock of cotton at seaports is considerably in excess of last year, while at interior towns the supply is slightly below the corresponding period of last year. Receipts at all the ports for the week 71,744 bales, against 81,426 last week, 102,484 the previous week, and 136,533 boles three weeks since. Total receipts since September 3,312,231 bales, against 2,406,346 the corresponding period of the previous year. Exports from all ports for the week were 111,741, against 72,525 same week last year; total exports for the expired portion of the cotton year 2,277,676 bales, against 1,541,409 for the same time last year. Stock at all ports 579,731 bales, against 432,299 for the same time last year; stocks at interior towns 82,639 bales, against 84,565 last year; stock in Liverpool 750,000 bales, against 452,000 last year. American cotton afloat for Great Britain 365,000 bales, against 227,000 last year. India cotton afloat for Europe 169,000 bales, against 131,340 last year.

The weather at the South has been rainy during the week. In some sections it has approached to a storm.

OHIO.

CINCINNATI, April 2.—The boiler in McCall's distillery, at McCall's laundry, exploded, killing six and wounding nine—two fatally.

MISSISSIPPI.

JACKSON, April 2.—Alcorn, in his special message, says rewards for Ku-Klux outrages be assessed upon the county where the outrages occur, with the right to a change of venu on the part of the State, and asks authority to organize a cavalry regiment of picked men, to operate wherever the masked assassins appear—the troops to be subsisted by the county wherein their services are necessary.

ENGLAND.

LONDON, April 3.—The following dispatch has just been received from Versailles:

Several thousand National Guards, occupying Putean Cour Bevoie and Bridge of Neuilly, have been routed by the troops, who carried the barricades and captured many prisoners. The Nationals fled into the city. The moral effect of the affair is excellent.

FRANCE.

PARIS, April 1.—The Journal Des Debats reports a collision at the Bridge of Scores with Ducrot's men, and adds that battalions of the Committee were on the alert last night, fearing an attack. Ten thousand were in Bois Bologne, and large numbers were bivouacked in Champ Elises.

The Committee intend to issue assignats to meet their immediate necessities. The Nationals have occupied the building of Credit Forrcier.

The party of order still hold possession of the Bank of France. The bank, however, to save itself from being plundered, has advanced three million francs to the insurgents.

The organization and equipment of marching battalions in Paris is actively going on.

The army of Versailles has occupied St. Cloud and the line of the Seine.

VERSAILLES, April 2.—The Government has charged General Clenchamps with the organization of the troops.

General Charithe holds Nantes.

A movement is on foot in Paris to disarm all the battalions which do not recognize the authority of the committee. Cri du Peuple demands that this proposition be carried out.

PRUSSIA.

BERLIN, April 2.—The bill for the union of Alsace and Lorraine with the German Empire has been referred to a special committee in the Reichstadt.

The motion that the Polish territory be not included in the Empire was rejected.

Bismarck explained that the policy towards France was to facilitate the task of the Republic.

The Emperor has decided not to intervene unless the interests of Germany are endangered.

AUSTRIA.

VIENNA, April 2.—A heated debate is progressing in the Riechscrath, on army matters. Opinions are widely divided on the proposition to raise fresh contingent.

MONDAY'S NOON DISPATCHES

WASHINGTON.

WASHINGTON, April 3.—The presentation of the San Domingo report has been postponed. When presented, a brief message will accompany the report, recommending the postponement of action until next session.

The unveiling of the Morse statue at New York, has been postponed to the 8th of June.

CALIFORNIA.

SAN FRANCISCO, April 3.—The damaging drought continues.

Two sharp earthquakes have occurred, with five seconds interval, shattering houses. No damage was done. The people fled to the streets but soon returned.

Rudolph beat Cicille Dion sixty-six innings. The score stood, Rudolph 1,500, Dion 1,288.

ENGLAND.

LONDON, March 3.—The government troops shot their prisoners as rebels.

The popular indignation against the Versailles government is terrific. The Nationals threaten to attack Versailles.

Special dispatches report the 74th regiment of the line came to Paris Saturday and fraternized with the Nationals.

Victoria visits Napoleon at Chiselhurst today.

A special to the Times says fighting at Courbevoie is sharp. Reports conflict regarding the first shot. The Nationals were first driven into Courbevaie, but shelled out, and made a stand at Neuilly bridge, where they kept up a hot fusillade, but were again forced to retire within the city and shut the gates.

FRANCE.

PARIS, April 2—Sunday Evening.—Fighting since yesterday evening at various points. Mont Valerian opened on the Nationals, who were marching on Courbevaie, and prevented them from establishing a position there, which compelled their retreat, after considerable loss.

VERSAILLES, April 3.—The cricis is at hand, two batteries in motion on the road to Paris, and ambulances all ready.

The troops did not attempt to follow. The Nationals lost two hundred.

LITERARY.

George Eliot (Miss Evans) is at present engaged on a New novel for Blackwood's Magazine.

Mr. Mitford's "Tales of old Japan" is receiving general praise. It furnishes much curious and interesting information concerning the old civilization of the Japanese, now, the author says, fast disappearing.

Mr. William Hepworth Dixon's last volumes of "Her Majesty's Tower" is savagely criticised in the Saturday Review, of March 11. The critic says that the author's sins against good taste and good English are not few.

SOUTHERN FERTILIZER COMPANY,

of Richmond, Virginia, and is perfectly reliable. Many used it last spring with great satisfaction on cotton and vegetables.

Mr. J. W. Akers states that he made fine turnips with it on land that would scarcely produce anything without manure. Among those who used it on cotton, I beg to refer to General John B Gordon, A. B. Latham, Esq., Mr. J. H. Kimbrell, Col. E. B. Whitman, B. Brown, J. P. Austin and S. D. Brown.

THE CAROLINA FERTILIZER!

IS MADE FROM THE

PHOSPHATES OF SOUTH CAROLINA,

AND is pronounced by various Chemists, one of the best MANURES known. It was extensively used in most of the Cotton-growing States last season, and in a great number of trials, in comparison with other leading Fertilizers, proved superior to every other.

THE SOUTH CAROLINA PHOSPHATES

Are remains of extinct land and sea animals, and possess qualities of the greatest value to the Agriculturist. Pamphlets containing description of this

REMARKABLE DEPOSIT,

With engravings of Fossils found in it, and testimonials proving the superiority of the Fertilizer, will be forwarded on application.

Extract from article in Rural Carolinian, February number, 1871, giving details of experiments with fifteen different Fertilizers:

"From the above experiments and their results, I almost reach some conclusions which may prove of interest to others.

"First—That Peruvian Guano, which has been considered the standard for comparison for all commercial Fertilizers, fails to produce as much cotton as a Fertilizer claiming to contain no ammonia at all.

"Second—That neither the Peruvian nor the unmixed Super-Phosphates produces so well as a combination of the two, or as a commercial Fertilizer containing both super-phosphate and ammonia, like the Carolina Fertilizer, which has produced better results for me than any other commercial Fertilizer."

ATLANTA:

TUESDAY, APRIL 4, 1871.

PRESSURE OF OFFICE-SEEKERS.—The President stated, on the 30th, that nearly twenty ex-Congressmen had applied to him for office, and that he had already appointed four of them, but did not know how he was to provide for the rest, unless he made important removals. He says the pressure on him is almost unprecedented.

☞ At a mass meeting in New York on the 30th, where were many colored men, the feeling against Grant, was very remarkable. Some person called for three cheers for Grant. For a few seconds the vast audience was silent as death; then followed a storm of hisses, lasting several minutes. It was quite a surprise to the Republican politicians, many of whom were present.

THE SOUTHERN MAGAZINE, BALTIMORE, 166 Baltimore street: Murdock, Browne & Hill, Publishers.

We had a call yesterday from Mr. W. L. Hill, the agent for the above Southern periodical. The Magazine is a sterling and brilliant one. We find some of the best Southern writers among its contributors.

Mr. Hill is here in the interest of this magazine, and we commend him to our citizens.

The San Domingo Report.

The President, it is said, does not particularly desire speedy action by Congress on the San Domingo report, and he will not even ask that the report be considered at this session. He will merely send it to Congress, where it will be laid on the table or referred to the Foreign Relations Committee of the Senate. The President has by no means given up the idea of annexation. He is confident the people of the country are favorable to the project, and he will do all he can to assist the cause during recess.

☞ Two of the rebel Ku-Klux were captured in Chattooga county, Georgia, recently, and were tried and sentenced to seven years each in the penitentiary. These rebels were not rebels in the strict sense of the term, but were ex-Federal soldiers who settled in Georgia after the war, and we style them rebels simply through courtesy to the Hon. Benjamin F. Butler and his political associates in Congress, who would be much mortified to hear that two men of their own feelings, sentiments, and habits of life are in the Georgia penitentiary for committing Ku-Klux outrages.—*Courier-Journal.*

Aid to the Air-Line.

A bill was introduced into the United States House of Representatives, by Hon. A. S. Wallack, on the 13th instant, asking aid in the construction of a railroad "between the towns of Charlotte, North Carolina, and Atlanta, Georgia, via Spartanburg and Greenville," by which the Treasurer is authorized to issue bonds of the United States, of one thousand dollars each, payable thirty years from the date thereof, with interest at six per cent. per annum, payable semi-annually in gold. These bonds are to be issued to the amount of eight thousand dollars for each mile of railroad, which shall be completed at any time within five years, from the date of the act. The bill has been read twice, and referred to the Committee on Railways and Canals, and ordered to be printed.

Permanent Organization of the Democratic Congressional Committee.

At a meeting of the Democratic and Conservative Congressional Committee, held the 31st of March, a permanent organization of the committee was effected by electing the following officers: Chairman, Eugene Casserly, of California; Secretaries, F. E. Shaber, of North Carolina, and Samuel N. Bell, of New Hampshire. Mr. Cox, also, in behalf of the sub-committee, appointed to report on the National Democratic Executive Resident Committee, made the following report, which was adopted: Chairman, Samuel J. Randall, of Pennsylvania; Henry W. Slocum, of New York; Chas. E. Eldridge, of Wisconsin; Wm. E. Niblack, of Indiana; Thos. Swann, of Maryland; Richard T. Merrick, General W. L. Jeffreys and T. M. Smith, of the District of Columbia.

The Sunday Schools on Sunday.

From the Sun of Monday morning we extract the following from an account of the Sunday-school meeting at the First Baptist Church, on Sabbath afternoon:

Rev. Dr. Brantly was then called upon to address the Sunday-schools for a few moments. His time and that of other succeeding speakers being limited to ten minutes, the Doctor concluded to tell a little story to the children, as it would just about consume his time, which he did satisfactorily to the children, and even to the moral instruction of the older. After Dr. Brantly concluded his story, a song called "The Waters of Life," was sung with much interest and animation, and served as a delightful variance in the exercises of the evening. Col. E. Y. Clarke was then called on to address the assembly, which he did with characteristic cordiality, yielding to the request of his friends, both as a duty and pleasure. He spoke briefly of the great influence and great good derived from little things in life, and as a suitable text for his theme, he referred to the verse in the Bible, "Jesus wept." The children enjoyed an anecdote from Colonel Clarke about the little girl who "talked so much because she had something to say." His address was well received, and listened to with great interest.

"Beautiful River" was the next song in which there was a sweet mingling of voices. The sentiment of this song had its influence, and seemed to have given direction to the thoughts of the next speaker, which was Rev. Dr. Wills. He said that in the short time limited he could say but little; that it usually took about ten minutes to move his small craft from shore and get out on the sea of thought; but as he was expected to sail but a short distance, he would not disappoint expectations. The Doctor commenced with an anecdote, too, about the conjugation of a Latin verb, but more seriously addressed himself to the real interests of the meeting. He said they had assembled to make good and lasting impressions, and all should feel a most profound and lively interest in the young who are to be our future hopes in all things perspective. Senatorial dignity and grandeur, and all the high officers of State or national government; each position of life as has been filled by the greatest and most prominent men, or occupied by the profoundest authors, are to be filled and occupied by the young. He said such visions as these rise before us on this occasion. His beautiful figure of the two fountains rising on a lofty summit of the Rocky Mountains was listened to with intense interest. One flowing in an easterly direction, swelling into a majestic river and finally finding its ocean home in the Gulf; and the other, running a westerly course through its own rich golden beds and losing its waters in the mighty murmurs of the Pacific. Dr. Wills grew remarkably eloquent in addressing himself to the orphan children. These, he said, are the children of brave men, as brave as ever drew a blade in battle, and fought under "as bright a banner as ever flashed under the sunlight of heaven." (The intense feeling of sympathy by the audience created involuntary applause). That they sleep beneath the soil of Kentucky or their bones bleach upon the hills of Virginia, or lie buried beneath the sands of the sea; that here are their orphans, making their appeal, and he could imagine that these braves were now wearing their diadems around the throne, and bending from the crystal battlements unable to enjoy their repose until their destitute children be provided for by the people in whose defense they drew their sword and shed their blood.

The Orphans then sang some very appropriate songs; after which, a speech was delivered by one of the orphan boys, who acquitted himself well.

At the suggestion of Dr. Wills, a collection was taken up, which amounted to $153 15 cash, and $21 50 promised; which, together with the $200 they received from their concert Saturday night, makes $374 65.

WASHINGTON.

WASHINGTON, April 3.—The government expenses for March were $13,250,000.

Nominations—W. G. Smith, Surveyor of Customs at Memphis; Jos. H. Speed, Postmaster at Marion, Ala.

No Southern confirmations to-day.

The Senate Committee on Elections had an inconclusive meeting to-day on the North Carolina Senatorship. There will be another meeting Friday.

The following, prepared by a prominent Northern Republican, and approved by many Southern Representatives, will be proposed as a substitute for the Ku-Klux bill:

1. Any State officer, whose duty it is to afford equal protection to all citizens, declining or neglecting to do so, shall be liable in damages. 2. Such officer, also, shall be criminally liable. 3. Persons abetting or advising such delinquency on the part of any State officer, shall be liable to civil and criminal prosecution in the Federal Courts. 4. Marshals serving writs in accordance with this act may call a *posse comitatus*, if resistance be too strong. The President may enforce the writ by army or navy.

In the Senate, bills were introduced to incorporate Red River Raft Company, and creating a Western Judicial District of North Carolina.

A bill passed giving Dahlonega Mint to the Georgia Agricultural College.

Blair spoke on Sherman's resolution to adjournment.

In the House, a general debate proceeded. An arrangement was made for night sessions, and a continuance of the general discussion until Wednesday, when the ten minute rule will be applied, and amendments be considered in a Committee of the Whole.

Synopsis of the Weather Report for the past Twenty-four Hours.—The area of the low pressure, which was on Sunday evening over Lake Michigan, is now over Lake Ontario. The pressure has varied slightly, and is now somewhat higher in the Southwest. It has risen in the extreme Northeast, and is now falling. Clear and clearing weather now prevails from the Gulf to the upper lakes. Brisk and high winds have been experienced from the Missouri river to Lake Huron. Threatening and rainy weather has prevailed to-day on Lake Ontario and in the Middle States.

It is probable that gentle winds with partially cloudy weather will, on Tuesday, be experienced from Pennsylvania, West and Southwest, to the Mississippi Valley; threatening and rainy weather in New York and the Eastern States.

In the case of Miller's executors against the United States, the Supreme Court hold therein that the confiscation acts are constitutional and valid, and the proceeding in them against the property of rebels to be regular.

In the case of Buffington against Day, the court hold that the general government cannot tax the salaries of State Judges. The judicial power of the States is exempt from Federal interference, and in respect of this power the States are as sovereign and independent as is the general government.

A dispatch from Burr, chairman, from Connecticut, estimates English's majority at 800, and two Democratic Congressmen, being a gain of one. Legislature very close. Several Democratic gains.

NEW HAVEN, April 3.—In New Haven, Jewell, Republican, for Governor, gaines 391 on the vote of last year. Twenty-one towns in New Haven county show a gain of 831 for Jewell over last year. Jewell is probably elected.

Kendrick, Democrat, for Congress, from the Second District, is probably elected by a small majority.

HARTFORD, April 3.—Strong, Republican, is elected to Congress from the First District.

ENGLAND.

LONDON, March 3.—A dispatch from Versailles to-day says Marshal MacMahon has been appointed Commander-in-Chief of the French army.

A dispatch from Paris this forenoon says the Commune has issued a proclamation couched in the following language: Attacked by the Versailles government, we have a mission to protect the city, and call for the aid of the citizens.

There was a continual movement of the Communal forces during the night, and a distant cannonade is audible this morning.

Rappel was beaten everywhere throughout the city.

A dispatch from Brussels, of the 3d, says the second sitting of the Peace Conference will be held to-day.

FRANCE.

PARIS, March 2.—A serious engagement took place this morning between the government troops and the Communists. About 2,000 National Guards marched on Courbeovie and were met by the gens d'armes and gardes forrestiers. The Captain of the latter galloped up waving his cap, intending to address the Communists, when a zouave with that body shot him dead. A general action followed.

The gens d'armes took five prisoners, one 76 years of age, who were shot immediately. The guns of fort Valerian swept the road and the Communists fled. Twenty-five insurgents were killed and many wounded. The engagement was over at one o'clock. The National Guards still hold Porte Maellot. Battalions of artillery are hurrying up. The rappel is beating and the ramparts are being manned. The greatest excitement prevails.

MIDNIGHT DISPATCHES.

WASHINGTON.

WASHINGTON, April 3.—The confiscation case decided to-day came from Michigan. The court held that the confiscation act of 1862 is valid and constitutional, and that it was competent for Congress to prescribe a procedure against the property of the person offending, and not against the person.

Justice Davis dissented on technical grounds, but concurred in the view of the court as to constitutionality of the act.

Justices Field and Clifford dissented entirely.

The latest figuring elects Jewell and three members of Congress, the Republicans gain the Governor. Congressional delegation same as last session.

Returns from municiple elections in Ohio is indefinite, and show, so far, about equal gains and losses.

NEW YORK.

NEW YORK, April 3.—The Governor of Alabama pays the January interest in default by the Alabama and Chattanooga Railroad Company on the bonds issued and indorsed to said company by the State of Alabama.

The Selma and Gulf Railroad Company are paying April coupons on the indorsed first mortgage bonds, and also on the second mortgage bonds.

The affairs of the Commonwealth Fire Insurance Company are now in the hands of the receiver. They look no better.

ALBANY, N. Y., April 3.—It is reported that the laborers on the Hudson River Railroad, who are now receiving 125 per cent. have struck for an advance of fifty cents. There are six hundred laborers employed and the strike is general.

CONNECTICUT.

HARTFORD, April 3.—Two towns in Hartford county give Jewell, Republican, for Governor, 367 majority. The county went Democratic last year.

The Times' special from New Haven, Conn., 3d, says that enough returns have been received here to ensure the election of Jewell beyond question, also the return of Kellogg to Congress from the Second District. The Republican gain in this city is 434 over last year.

NORWICH, April 3.—Starkweather, Republican, was elected to Congress in the Third District by 1,500 majority over Steadman. The vote for Governor, as far as heard from in New London and Windom counties, is about the same as last year, when Jewell's majority was 1,995.

NEW HAVEN, April 3.—The figures in the Palladium office give Kellogg 75 majority.

NORWICH, April 3.—Jewell 1,501, English 1,242. Last year Jewell had 1,317, English 1,089.

ENGLAND.

LONDON, April 3.—The Paris Commune has issued a decree, arraigning Thiers, Favre, Picard, DuFavre, Simon and Pothnan before a tribunal of the people, and ordering their property to be seized. Another decree pronounces the separation of the church and state; it suppresses religious bodies and abolishes national property.

OUR FRENCH LETTER.

MONTMARTRE AND THE INSURGENTS—THE REPUBLICS OF 1848 AND 1871—THE GARIBALDIS—FLOURENS—THIERS—FRANCE NEEDS REPOSE—THE HATRED TO PRUSSIANS—THE NEWSPAPERS—THE THEATER—PRUSSIAN MISSILES FOR SALE—THE ENVIRONS RESORTED TO—MACMAHON—GOSSIP.

Special Foreign Correspondence of The Constitution.]

PARIS, March 18, 1871.

Montmartre continues still to be more than a source of uneasiness every day that it holds out, increases the difficulty of reducing the hot-headed patriots by rational means. The authorities hesitate to proceed to extremities, and their soothing system of treatment is construed as the consequence of fear. Blood must flow, and the sooner the three days' work is over the better for France. The Fabian tactics of the Government are not so impolitic perhaps, afterall. They have freed the city from the disarmed troops, and have been bringing in thousands of regular soldiers and trains of artillery. The "psycological moment" is therefore at hand. Generals Vinoy and Paladine are ready to clear the famous hill. Will the soldiers do their duty—the conservative portions of the National Guards theirs? That is the question. If the Government should be beaten in the fight—what next, and next? Flourens and Blanqui at the head of affairs, with all the Ministers chosen from the Reds of Belleville and Montmartre. Yet, such would be the issue for a time.

There is a real parallelism between

THE REPUBLICS OF 1848 AND 1871,

except that now, the national work shops of Ledra Rollin, or "Ledru," as he is contemptuously called by the Socialists, are replaced by the civic force, preferring the government thirty sous a day to their ordinary work. Then, as now, the National Guard of 300,000 men is divided into two hostile camps—the bourgeois, liberal and conservative—the *proletariat*, social and revolutionary—between which the government oscillates like a pendulum. Montmartre is resolved "to defend the breech," till a new Assembly be elected to vote definitely the Republic. The latter, as in 1848, is claimed to be above discussion—superior to universal suffrage. The 15th of May is being rehearsed as the prelude to the terrible days of June.

Greater vigilance is being displayed around Montmartre, its 220 cannon and 50 mitrailleuses. Women now mount guard. In the day time, the works can be visited without great difficulty. A powder mill has been established; the caves in the hill have a million of ball cartridges. Everything is ready to

BLOW PARIS INTO THE AIR,

rather than surrender. Men belonging to the National Guards who sympathize with this stronghold return to private life to find work, and ascertaining wages have fallen 50 per cent by the war, resume the *rôle* of warrior. Piano-makers, masons and painters largely compose the insurrectionists. There are 40,000 shells in the depot, and last evening the cannons fired a salute and signal lights were burned in honor of the conclusions of a monster meeting, which deposed Generals Vinoy and Paladine, and elected Garibaldi and his son Menotti, commanders in their stead. In any case, the mutineers decline to obey any but superior officers elected by their body. Their organization is very complete. There is a "Head Center," to where delegates from the twenty wards of the city repair to deliberate, and concert watchwords. This committee has issued an appeal to the military, not to obey any orders given to fire upon the sovereign people. They have resolved to adopt Lafayette's flag—the tri-color—instead of the pure red.

FLOURENS AND BLANQUI,

having been tried in their absence and condemned to death, for their endeavors to excite revolution during the siege, have replied, doubtless from their hiding place in Montmartre, to the government sentence. Flourens is ready to die, if his blood will wash away "the assassins of the country, and the murderers of January last"—meaning Favre, Trochu and Picard. These placards are printed on "red" paper as a matter of course, and posted in the districts they are intended to influence. To tear one down, or almost to take a copy, would be visited by immediate death. The passers-by stop, read them by candle light, approve, sigh or laugh, according to their sympathies.

Pressure is being put on the government to surround Montmartre by line troops—stop the pay of the disaffected men—disband the battalions to which they belong—but to do something. Ridicule, which generally kills in France, has failed at Montmartre. It must be something like a desperate remedy, that a philanthropic astronomer recommends the seceders, to study "the brilliant appearance of Jupiter, Sirius, and Mars," during their night watches, and so induce a rational state of mind. It will be some time I fear, before the spiders will weave their webs in the kepis of the Montmartrains, as they did in the helmets of Pindar's heroes after war.

THIERS

is the real "medicine man" for France, and if he, and the Assembly, now about opening again at Versailles, pull well together—give and take mutually—the work of reconstruction will advance rapidly. First, order must be established in Paris. Agents arrive daily with orders from the States and England for goods, but have to proceed to Belgium to have them executed. There is plenty of work, and plenty of money to pay for it, but the hands decline to undertake it. The typhus of revolution is abroad—spreading, raging. Louis XIV. said, *l' etat c'est moi;* the Jacobins of 1871 parody the saw by asserting *le peuple, c'est moi.* France has had *faineant* kings, may she be delivered from a *faineant* people! The party of order is the strongest, but timid—hence the force of reaction. It is time to extinguish the fire.

Paris is expected to be relieved from the state of siege she has lived under since September last, so that the suspension of the journals lately decreed by General Vinoy—a measure which has increased, not allayed, the general irritation—will cease.

THE NATION WANTS REPOSE.

There is the Prussian bill to pay, and honored it will be, if France will have to part with her pound of flesh. A national loan will be issued, and will be taken up without interest. If necessary, jewels will be sold or pawned, but the Prussian must be got rid of. He will not be forgotten. The French are not a vindictive people; their bark is often worse than their bite; but they are united to have their revenge on an implacable enemy, who made war without chivalry, and concluded it without generosity. No more sentimental wars far France—no more wars for an idea. The enemies of Prussia are henceforth the fondled friends of France.

THERE IS THE ANTI-PRUSSIAN LEAGUE,

to never allow a German to work in France. In Paris, as in the Provinces, the Tueton who returns is tracked, denounced and hunted. Prussia menaced reprisals, but the balance is against her. Her tourists threaten not to visit France, they are prudent, and avoid the trouble of being turned back. The French have launched their excommunication. Of foreign questions, hardly any meet with attention. The London conference is viewed as the undoing of the 1856 treaty, the natural consequence of the defeat of France. England has secured the plutonic salve, that henceforth a power having once signed a protocol cannot disown it till the occasion arrives for doing so. France has forgotten Pio Nino, and the only cognizance she has of the new King of Spain is, that he has contributed 200 francs to the fund for her wounded.

Among the many persons and things arriving in Paris are the rogues expelled at the commencement of the siege. They have a fair field just now, as the police force is extinct. There are many beggars, but nearly all children, and swarm around you like a hive of bees. A few sous prove a most efficient riot act. The most curious feature of Paris life is

THE NEWSPAPERS.

The sheets might be carpeted with those that appear for the first and last time. Where the printers, paper and money come from is a mystery that Sue could not clear up. The public censor, like Homer, must be nodding of late, as the market is flooded with filthy photographs and prints, and the purchasers are generally old men debauches. The filles de joie are frowned down with a Spartan severity; they were the greatest among the great sins of the defunct Empire, and hence patriotically reprobated. Gambling had assumed such proportions on the boulevards, that it was requisite to suppress the tables, or rather "carpets," by proclamation. It was another vice bequeathed to us by the savior of society. Some of the newspapers of standing announce their intention to remain in mourning till the last lightning conductor helmet disappears from the country.

THE THEATERS

are struggling to keep open, but only that of the Palais National pays its expenses. The new pieces will not be brought out till the town "fills," and then we will see the Prussians pointing a moral and adorning a tale. Paris has had no carnival this year, and the fete of micarême was prohibited, as the wearing of masks or the holding of the usual public balls might lead to a breach of the peace. Besides, what need of other masquerades than that of Montmartre?

The journals are commencing to pick up a few advertisements, but one seeks in vain for such from business houses. Money-lenders come out strong, and promise "every facility for payment." There are the usual crowd of announcements from professors of English—which tell their own tale. None has yet appeared offering lessons in German. Then there are to be met with, in by-places and on the rain-spouts, those familiar notices in manuscripts, where real poverty makes known its wants. The museums are gradually reopening, and the galleries of the Louvre have no longer guardians in imperial livery of gold and green, but are dressed in neat suits of black. I think

THE GUNSMITH'S SHOPS

are more attractive than any museum—they display collections of Prussian missils of every fashion and size. A shell of two hundred weight, that was picked up at Auteceil, is the lion of Paris lions now.

It would be an insult to ask how are we off for food. There is no stint of anything—to be hypercritical, all that I can observe to be wanting is fine table salt. Only coarse, pickling material can be had for love or money. The supply of water still is taken from the Seine—not unpalatable when filtered—pending that the aqueduct at Ourcy be freed from the Prussian dead. Horses are yet scarce—a cab is an affair to be arranged after the manner of a solemn treaty—but six francs an hour generally concludes the bargain, and ensures a happy state of mind in cabby.

The environs of the city continue to be the object of a visit by thousands. First the battle-fields are visited, and laurels, crowns and bouquets deposited on French graves, or to state the exact truth, "pits." I visited St. Cloud on Sunday last, being the first holiday, the citizens were free to go there without a pass. There were not less than 50,000 persons moping in sadness and in silence among the blackened ruins. The destruction of this village will be the acme of German shame forever. The French desire not to rebuild the town, but leave it for young France to ponder over, and remind them what they have to do. The ruins of the palace promise to be carried away in the form of souveuirs.

MARSHAL MACMAHON

has arrived with his family. He is truly a changed man, and looks as if his military life has closed. He hobbles on a stick like a crutch, the twitches of pain being too evident in his emaciated features. Trochu is not coming to Paris, and he is right; but he is preparing a book—"The History of the Siege." He was recently reported to have gone mad. To perpetuate his break down will confirm the rumor.

At Lyons resided two sisters, for safety. After the peace, one of them set out for Switzerland, to bring back her brother, a prisoner of war, and an invalid. On the day fixed for the arrival, the other sister had prepared something like a family banquet. The sister duly arrived, and when asked where was her brother, replied, "Below, in his coffin."

"We have lost a great many men in this war," observed a Frenchman to a friend." Alas! yes, but all my creditors had volunteered for the front, and"—. "Well, they have all come back."

YESTERDAY, April borrowed a little air from March, and the wind howled and whirled and twisted about uproariously, "marching on" to the upsetting of beavers and flopping of dresses. TO THE OFFICERS OF THE SUNDAY-SCHOOL SOCIETY OF THE NORTH GEORGIA CONFERENCE—*Dear Brethren*: Our Conference has no Sunday-school agent, and the interests of the Sunday-school cause within our bounds demand a meeting of the Board at the earliest practicable moment. After due consideration, I hereby call a meeting in the city of Atlanta, at Wesley Chapel, on Wednesday, April 12th, 1871, at 10½ A. M.

The members of the Board will please advise me immediately by letter, when to expect them, and they will be met at the depot and homes provided for them.

On the Georgia Railroad, the Macon and Western Railroad, the Atlanta and West Point Railroad, and the Western and Atlantic Railroad, ministers travelling on ministerial duty will be passed at half fare.

ARMINIUS WRIGHT, President,
North Georgia Conf. S. S. Society.

OFFICERS OF THE SUNDAY-SCHOOL SOCIETY.

Arminius Wright, President; G. J. Pearce, Vice President; W. R. Branham, 2d Vice President; W. F. Cook, Secretary and Treasurer. A. J. Jarrell, D. D. Cox, W. A. Parks, W. M. Crumley, W. D. Pledger, J. M. Lowry, Dr. Wm. King, F. M. Richardson, W. C. Derry, E. H. Pottle.

THE readers of THE CONSTITUTION have been kept well posted in regard to the General Ticket Agents' Convention that was held in Savannah last week.

When they passed through here on their way to Savannah, some of them were so well pleased that they determined to return this way and pay Atlanta more than a passing visit.

They did so, and among them we noticed H. W. Gwinner, Esq., the accomplished Gen'l Passenger and Ticket Agent of the Great Pennsylvania Central Railroad, also Mr. L. M. Cole, General Ticket Agent of the Baltimore and Ohio Railroad, with others, prominent in the railroad world.

It afforded these gentlemen much pleasure to ride over our city and witness the great improvements going on—the life and activity of our citizens. They were surprised to see Atlanta such a go-ahead city. After remaining here a day or two, and enjoying the splendid fare of Crittenden & Co., they declared that the H. I. Kimball House was second to none in the United States.

We hope that these gentlemen, and all others like them, will be induced to visit our city, and that Atlanta will be the place for the meeting of the convention next year.

MESSRS. PECK, DESAULLES & CO., are live, energetic merchants. They make it a point to select their goods with great care as to quality, and at the same time, sell at the lowest prices. Their business tact is proverbial, and their integrity is known and admired by their customers. Buying for cash they are prepared to offer superior inducements to cash buyers. In dress goods, they have, perhaps, one of the largest assortments ever seen in the South.

The endless array of silks, poplins, piques, lawns, muslins, &c., is enough to tempt even the most miserly to purchase. In the retail department nothing is lacking to supply the wants of the fair sex, and the clerks will ever be found polite and accommodating.

The wholesale department is complete and the supply ample enough to meet the wants of trade. Country merchants will find it to their advantage to call on them, as their goods have been purchased with great care, and Messrs. P. deS. & Co. guarantee their prices to be as low as the lowest.

We take great pleasure in calling attention to their handsome card in this issue. They are ready for business, and they deserve the most liberal patronage. Their past success is a gratifying testimonial to their merit.

AT a meeting of the General Ticket and Passenger Agents, held at the H. I. Kimball House, Atlanta, Ga., W. P. Johnson, General Ticket Agent Illinois Central Railroad, was called to the chair, and A. C. Dawes, General Passenger Agent K. C. St. Jos. and C. B. Railroad, was requested to act as Secretary.

The following resolutions were adopted:

Resolved, That the thanks of the ladies and gentlemen of the party be and are hereby tendered to B. W. Wrenn, General Ticket Agent of the Western and Atlantic Railroad, for the magnificent manner in which he has done all in his power to make our trip over his road and at Atlanta, one of pleasure and comfort.

Resolved, That our thanks are also tendered to Messrs. Kimballs and to Mr. S. E. Crittenden of the H. I. Kimball House, for the elegant manner in which we have been entertained at the best hotel in the United States.

Resolved, That we shall ever remember with much pleasure, April 3d, 1871, spent at the beautiful city of Atlanta

Resolved, That these resolutions be published in the principal papers of Atlanta.

W. P. JOHNSON, Chairman.

A. C. DAWES, Secretary.

DEGIVE'S.—Last night Mr. McKean Buchanan made his first appearance in our city, before an appreciative audience. The character selected was Macbeth. He is elegant in his movements, accomplished in the external of histrionic art, and endowed with considerable advantages of person. As Macbeth, driven along by his fate, his mind troubled by his own intentions and the suggestions of others, and then assailed by remorse; and again, aroused by anxiety and agitation; hurried on by the prediction of the witches; his doubtful speeches on human life; in short, his conception of the difficult character, gave evidence that he had bestowed upon it much careful study, and that he well understood Macbeth in the changes of fortune, or when aroused by passion, or while under the spells of magic.

The presence of mind, the self-will, the crushing into subjection the natural affection, the ambition, the manner and gesture—in fact, the impersonation of Lady Macbeth by Miss McKean—evinced decided histrionic talent. The other characters received a very satisfactory rendition.

THE wonderful success that has met the introduction of Lippman's Great German Bitters into this country, is unparalleled. Wherever introduced, there they have become, like in Europe, the household remedy. For Dyspepsia, Nervous Exhaustion, Debility, loss of tone in the stomach and digestive organs, as a tonic and appetizer, these bitters stand without an equal. One trial of them will convince the unbelieving that they are what has long been looked for, a panacea for the sick.

Lippman's Bitters are for sale by all druggists and dealers.

READ! READ! READ!!! Health, beauty and happiness restored to modern womanhood, by using Dr. J. Bradfield's Female Regulator or Woman's Best Friend.

☞ Sold by every Druggist in Charlotte, N. C., and by Druggists generally. ☜

We were kindly furnished the following extract from a letter to Dr. F. Scarr, Druggist, of this city:

STANLEY COUNTY, N. C.

Dr. F. Scarr—DEAR SIR: When in your town I asked you for something for my wife. You sold me a bottle of Dr. J. Bradfield's Female Regulator, or Woman's Best Friend. Please put me up one dozen bottles of the same, as the one I got from you has got my wife finely well. You would not know her now; she has got stout and healthy and as red as a rose. As others are needing it please send me one dozen bottles. ***

CHARLOTTE, N. C., March 23, 1871.

Dr. J. H. Bradfield—DEAR SIR: We cheerfully bear testimony to the efficacy and popularity of Dr. J. Bradfield's Female Regulator. Among a number of cases it has benefitted in this community, we mention that of a married lady. She was a sufferer from womb disease; had excessive and disagreeable flow of whites; was weak and languid. She was induced to try the Regulator, and after taking the second bottle she is sound and well. Her health and elasticity of spirits have returned, and she has gained many pounds in weight; feels altogether like a new being. Yours very respectfully,

march29—dtf WILSON & BLACK.

DANGER AHEAD.—A single spark may kindle a flame that will consume a city, and small ailments neglected, may end in fatal disorders. Bearing this fact in mind, let the first symptoms of debility or nervous prostration be met promptly with invigorating treatment. Foremost among the vegetable tonics of the age stands Hostetter's Stomach Bitters, and whenever the vital powers seem to languish, or there is any reason to suspect that the animal functions essential to the sustenation and purification of the body are imperfectly performed, this invaluable invigorant and antiseptic should at once be restored to. Indigestion always produces weakness of the bodily powers. Sometimes it happens that the appetite demands more food than the stomach can digest; though not more, perhaps, than is required to keep up the full strength of the frame. The object under such circumstances, is to increase the digestive capacity of the assimilating organ, so as to make it equal to the duty imposed upon it by the appetite, and capable of supplying the *building material of the system* as fast as it is required. This object is fully accomplished by the use of the Bitters. They tone and gently stimulate the cellular membrane which secretes the gastric juice, and the result is that the solvent is mingled with the food in sufficient quantity to convert all its nourishing particles into pure and wholesome element. If, on the other hand, there is a deficiency of appetite, without any corresponding deficiency of digestive power, the effect of the tonic is to stimulate a desire for food. In nineteen cases out of twenty, headache, nausea, nervousness, fainting-fits, spasms, and, indeed, most of the casual aches and pains to which humanity is subject, proceed primarily from indigestion complicated with biliousness and for both these complaints Hostetter's Stomach Bitters are recommended as a speedy and certain remedy.

READ!

IT is well known to Doctors and to Ladies, that Women are subject to numerous diseases peculiar to their sex—such as Suppression of the Menses, Whites, Painful Monthly "Periods," Rheumatism of the Back and Womb, irregular Menstruation, Hemorrhage, or Excessive "Flows," and Prolapsus Uteri or Falling of the Womb.

These diseases have seldom been treated successfully. The profession has sought diligently for some remedy that would enable them to treat these diseases with success.

At last that remedy has been discovered by one of the most skillful physicians in the State of Georgia. That remedy is

BRADFIELD'S FEMALE REGULATOR.

It is purely vegetable, and is put up in Atlanta, Ga., by Bradfield & Co.

It will purify the blood and strengthen the system, relieve irritation of the kidneys, and is a perfect specific for all the above diseases, as a certain cure as quinine is in Chills and Fevers.

For a history of diseases and certificates of its wonderful cures, the reader is referred to the wrapper around each bottle.

Every bottle warranted to give satisfaction or money refunded.

LAGRANGE, Ga., March 23, 1870.

BRADFIELD & Co., Atlanta, Georgia:

DEAR SIRS: I take pleasure in stating that I have used, for the last twenty years, the medicine you are putting up, known as Dr. J. BRADFIELD'S FEMALE REGULATOR, and consider it the best composition ever gotten together for the diseases for which it is recommended. I have been familiar with the prescription, both as practioner of medicine and in domestic practice and can honestly say that I consider it a boon to suffering females, and can but hope every lady in the land, who may be suffering in any way peculiar to their sex, may be able to procure a bottle, that their sufferings may not only be relieved, but that they may be restored to health and strength.

With my kindest regards, I am, respectfully,
W. B. FERRELL, M. D.

We, the undersigned, Druggists, take pleasure in commending to the trade Dr. J. BRADFIELD'S FEMALE REGULATOR—believing it to be a good and reliable remedy for the diseases for which it is recommended.

Dr. Prophitt's
Celebrated Liver Medicine.

It is purely vegetable, and will act upon the Liver and Kidneys as promptly as Calomel and Buchu, without any danger of salivation or destruction of the bones.

Parties taking this medicine need not fear getting wet, or any other reasonable exposure.

Symptoms of Liver Disease:

Headache, Dull Feeling or the Blues, Sour Stomach, Sick or Nervous Headache, Heartburn, Indigestion or Dyspepsia, Bad or Bitter Taste in the Mouth, the skin has a thick, rough feeling, and is darker than usual, Costiveness, Melancholy Feelings, Cramps, Cold Feet, Colic, Dysentery or Diarrhœa, Chills and Fever, and Piles. In fact, where the Liver is out of order, you are liable to every disease that is not contagious.

Prophitt's Liver Medicine, if taken properly, will prevent and cure any disease resulting from a deranged Liver.

It will regulate its functions and thus cure all diseases caused by the failure of its healthy action.

It has been used for a great number of years, and has given universal satisfaction.

There is no brother or son claiming to have the orginal receipt. It is put up in both Powder and Fluid form.

FAIRBURN, GA, September 4, 1868.

DR. O. S. PROPHITT:

SIR: My wife has been an invalid for fifteen years. Doctors all agree she had "Liver Disease." In connection with their practice she used various noted remedies, none of which seemed to do any good. Sometime ago I procured a bottle of "Liver Medicine," of your agent here, C. A. Harvey; which being given according to directions, has effected a complete cure. GEO. L. THOMPSON.

ATLANTA, GA., July 18, 1870.

MESSRS. BRADFIELD & Co:

GENTLEMEN—Last year, during my travels in Alabama and Southwest Georgia, I contracted chill's and fever, and my general health became very bad. I tried various remedies, and among others Shallenberger's Pills—all to no purpose. I was troubled with intense pain in the small of my back, and for months I did not have a moment's rest. I had well nigh despaired of recovering when a friend recommended me to take Dr. Prophitt's Liver Medicine. I did so, and one bottle has cured me; and to-day I feel like another man. I consider it one of the best medicines for general use now put up, and, without any reservation, recommend it to the afflicted.

I am, gentlemen, very respectfully yours, etc.
O. M. HARRALSON.

DR. PROPHITT'S
Dysentery Cordial

Is one of the most valuable compounds now put up for Diarrhœa, Dysentery, Cholera Infatum, or Cholera Morbus.

This medicine has been in use for years, and gives univeral satisfaction.

The most delicate child may take it with impunity.

COVINGTON, GA., November 9, 1867.

DR. PROPHITT:

Having a severe attack of Dysentery during the past summer, I was induced to use your Disentery Cordial, and derived therefrom immediate and permanent relief. It gives me pleasure to recommend this remedy to all who may be so attacked, believing that, should the directions be followed, relief would surely be obtained.

Yours, etc.,
O. S. PORTER.

CUSSETA, TEXAS, 1869.

DR. PROPHITT:

DEAR SIR—Your Liver Medicine and Pain Kill It a complete success. J. L. WHITTLE.

PROPHITT'S
Pain Kill It!

This is the celebrated medicine that run Perry Davis' Pain Killer out of the market, wherever it was sold. Davis made Prophitt change the name from Pain Killer to Pain Kill It.

For Rheumatism, Neuralgia, or pain of any kind, it has no equal.

For Cuts, Bruises, Burns, or old Sores, it is the best thing you can use for a dressing.

For Snake Bites or Stings of Poisonous Insects, it is a perfect antidote.

It is good for Colic, Colds, Coughs or Bowell Complaint. Its name indicates its nature fully. It is truly DEATH to pain.

Manufactured and sold by BRADFIELD & CO., Atlanta, Georgia, and by all Druggists.

NEWTON FACTORY, GA., November, 1867.

DR. PROPHITT:

Last summer my horse sprained his ankle severely, causing the whole leg to swell to about twice the natural size, and rendering him almost helpless; two applications of your Anodyne Pain Kill It thoroughly cured it. JOHN B. DAVIS.

PARLOR ALBUM

IN FIVE QUARTO VOLUMES.
Price, $9 00 per volume, or
$40 00 PER SET COMPLETE.

Description of the Work:

THE PARLOR ALBUM is doubtless the most extensive Art Gallery ever published and, by those who have examined the several portions of the work, it has been pronounced "The Climax of Beauty." Each volume contains 20 full page Chromo Lithographs, in Oil Colors, 40 full page Steel Engravings, 40 full page engravings on wood, and 200 pages of reading matter, descriptive of the illustrations, the whole making each volume about one-half as thick, and same sized pages, of Webster's largest Dictionary. Each volume is complete in itself and will be sold separately, if desired. Sold by Subscription Only.

Vol. I. Is devoted to Wild American Birds.
Vol. II. Contains Wild American Animals.
Vol. III. American Domesticated Birds and Animals.
Vol. IV. Foreign Birds and Animals.
Vol. V. Fishes, Reptiles and Insects.

This work will at once commend itself to the cultivated American people, and no library will, hereafter, be complete without this addition to its treasures; while as a parlor amusement it is unequaled by American publications.

AGENTS WANTED.

We will give agents very liberal terms for selling the above described publications, and wish to appoint an agent in every town in the United States and British Provinces. Experienced book agents and all other persons of respectability should apply at once. Any Young Man, or Young Lady, can, by devoting a short time during the day or evening, secure a complete set, free of expense, or, if preferred, we will allow a large commission in cash.

We have prepared a most beautiful SPECIMEN BOOK FOR AGENTS, containing 5 of the Oil Chromos, 10 Steel Engravings, 10 Wood Engravings and 50 pages of descriptive reading, being selections from each volume, together with blank paper, specimens of binding, etc.

Our Specimen Book has cost us quite largely, and we do not wish to send it to persons who do not intend to act as agents, but to any one who will make an effort to procure subscribers to the Work, we will send the Specimen Book, prepaid, on receipt of forty cents to cover postage. Enclose stamp for reply, and address

RAILROAD EXCURSION.

THE SAVANNAH SWANS—THE LIBRARY ASSOCIATION—"VIDDERS"—COL. W. T. THOMPSON, OF THE SAVANNAH NEWS—COL. SCREVEN—OTHER THINGS.

JACKSONVILLE, FLA., March 31, 1871.

Editor Constitution: Before I write you of the beautiful and classic St. John, I desire to say something further about

SAVANNAH AND THE TRIP

to this place.

Now, Savannah is a good, clever old town, and it has a very nice park, with a spouting fountain and a half dozen Neptunes without tridents—and one of them with a beard, in true classic style—as well as several swans, all of them spouting water at an amazing rate; but I felt badly all the while I was looking at it, because the swans seemed to be in an uncomfortable position, and I was afraid they would break their necks in their efforts at affording enjoyment to the spectators and water to the plants, or else be strangled. Indeed, it was painful to me, and I asked a nicely uniformed C. P. man, the guardian of the Neptunic temple, if he did not think they would get strangled. He replied, with an Irish brogue, in tones of cruel unconcern, "Yis, sir, they does git sthrangled sometimes." I at once determined that when the water-works question was LEGALLY before the citizens of Atlanta for a vote, that I would vote against the measure, unless it was first stipulated that *our* spouting fountains should not have any such cruel tortures inflicted upon the poor swans. However, upon reflection, I think I would not object to having a nice little park in Atlanta "water-works or no water-works," for the Savannah park, at the foot of Bull street, is a most pleasurable circumstance, a most enjoyable variety, and a most useful conclusion.

Then there is the Library Association, enterprised but recently in Savannah. I called in there a few minutes yesterday. They have already about five hundred volumes, and an immense number of journals and periodicals. The Librarian spoke in terms of wonderment of the Y. M. L. A. of Atlanta; and desired to know if THE CONSTITUTION would be sent to his society *gratis*. I referred him to the well known liberality of the proprietors of your influential journal for his answer. It was remarked in the conversation that THE CONSTITUTION was the best daily at the capital, and I did not gainsay it. If their Librarian can touch Charley Herbst with a ten-foot pole in point of library excellence, they will succeed.

The "young lawyer," whom you mentioned in connection with some mythical, "gay, young widow," desires me to say that his allegiance belongs of right, and shall be given, to the *sweet* young ladies of the Gate City, and that he has no idea of transferring it to the Forrest City on account of any mythical "widow." Some of his friends seem to think, however, that he may transfer that allegiance to a Memphis beauty—the charming Miss Susie B. He is reticent on that subject. He has a friend—a widower from Atlanta in the party—however, who has a general liking for widows' and that friend is an M. D., the seeming author of "A Sigh."

I called to see Col. Walter Thompson of the News to-day, and I congratulated myself on meeting face to face with the man whose humor in "Major Jones Courtships," is intwined with my earliest recollections of literature. He is a real man of letters—not pedantic. He is comparatively young—not gray-haired and wrinkled, as I had imagined from reading Paragraphist Bard. He has a fine forehead, a clear eye, in which the spirit of intellect dwells; a nose well defined, and not the dwelling place of spirits, nor *red* as a contemporary bard would have you think. An animated countenance, yet thoughtful withal, and a collected manner, make his visage. I spent a most delightful half hour with him. He has recently written for Appleton's Journal, a pen portraiture of Savannah and its surroundings.

As I came away I was informed by Major Peck that Colonel John Screven, the Mayor, was holding a reception for the Convention party at the Screven House, and I went over there. Charley Owens, of the Gulf Road, was giving a most humorous Irish travestby of Richard III. The champagne corks were popping, and high good humor prevailed. Charley is a good actor and a good fellow. Previously, as I was informed, there had been speeches from Colonel Screven, Mr. Vernon, editor of the Railway Guide, Mr. Barnes, of Memphis, and others.

The reception was in true Savannah style.

THE TRIP

and its incidents I will defer giving account of until after I have seen the beautiful St. Johns and the fabled fountain of youth at Green Cove springs. *Au revoir.*

Railroad Meeting at Dawsonville, Ga.

DAWSONVILLE, March 23, 1871.

The citizens of Dawson county convened at the Court-house for the purpose of calling the attention of the Directors of the Macon, Ocmulgee and Knoxville Railroad to the route spoken of in the Cumming meeting, in Forsyth county, of the 7th inst., which passes directly through this county, through the Armicalola Gap in the Blue Ride, which is decidedly the most practicable route for the building of a railroad through the mountains north of us.

On motion, Maj. John Hockenhull was called to the chair, and D. E. Smith requested to act as Secretary.

On motion of Judge Fowler, the following were appointed a committee to draft resolutions: Rev. Joseph McKee, A. M. Barrett, S. H. Perkins, Judge Fowler and G. W. Smith.

In the absence of the committee, D. E. Smith delivered an interesting and appropriate address to the meeting.

The committee reported the following resolutions, which were unanimously adopted:

1. Resolved, That Major John Hockenhull, D. E. Smith and A. M. Barrett be appointed a special committee to correspond with the Board of Directors of the Macon, Ocmulgee and Knoxvillee Railroad, on the practicability of the route; also, to represent to them the wishes of the people of Dawson county in regard to said road being built.

2. Resolved. That we recommend a mass meeting to be called on the first Tuesday in April, and that John J. Bishop and D. E. Smith be requested to address the meeting.

3. Resolved further, That the following named citizens be appointed a committee to conduct the Engineers through Dawson county and show them the most practicable route: N. H. Goss, Samuel Haben, John Lingefelt, D. E. Smith, Major John Hockenhall and Virgil R. Smith.

4. Be it further resolved, That the citizens of the present meeting agree unanimously to grant the free right-of-way to said railroad company.

On motion, the secretary was requested to forward a complete statement of this meeting's proceedings to the proprietors of THE ATLANTA CONSTITUTION; hoping that they and all other papers, friendly to this enterprise, will publish.

MAJ. JOHN HOCKENHULL, Chairman.
D. D. SMITH, Secretary.

MCKEAN BUCHANAN.—As this eminent tragedian commences an engagement in this city this evening, the following brief sketch of his life will be of interest to our readers:

"Mr. Buchanan was born in Philadelphia, February 28, 1823; is the son of late Paymaster Buchanan, U. S. Navy; nephew of Admiral Buchanan, of the late rebel navy, who commanded the Merrimac in the Hampton Roads Monitor battle, is the grandson of Thomas McKean, one of the signers of the Declaration of Independence, and is connected with many officers in our army and navy, the family having been identified with the Government in many of its departments since its formation.

"The tragedian was himself an officer in the navy, appointed by President Jackson in 1835, sailed under Commodore Dallas, of the West India Squadron, resigned his commission in 1850, became a merchant at New Orleans, continued his business there, largely engaged in sugar and other products, until 1850, was always infatuated with the love for the dramatic art, built a large private theater in New Orleans, conducted it with the greatest success for three years, relinquished his mercantile position and became an actor in January, 1850.

"He has since then performed with the greatest success in all the principal theaters throughout the world, where the English language is spoken; has been considered one among the foremost in his profession for many years in Great Britain and America; and is now visiting some of the Southern cities previous to another and last professional visit to Europe. Mr. B.'s success has enabled him to retire, but an enthusiasm for his art keeps him still on the stage. He and Mr. Forrest are the only living representatives of the old school of heavy tragedians in either hemisphere."

"Schnapps" is a remedy in chronic catarrhal complaints, etc.

I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommend it. Having a natural tendency to the mucous surfaces, with a slight degree of stimulation, I regard it as one of the most important remedies in chronic catarrhal affections, particularly those of the genito-urinary apparatus. With much respect, your obedient servant, CAHS. A. LEAS, M. D., New York.

26 PINE STREET, NEW YORK, Nov. 21, 1867.—Udolpho Wolfe, Esq., Present: Dear Sir—I have made a chemical examination of a sample of your "Schiedam Schnapps," with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are sometimes employed in the adulteration of liquors. I would not hesitate to use myself, nor to recommend to others, for medical purposes, the "Schiedam Schnapps" as an excellent and unobjectionable variety of gin. Very respectfully yours,

From the result of our examination, we consider the article one of superior quality, healthful as a beverage, and effectual in its medicinal qualities.

IT is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results. It is a certain, prompt, and speedy remedy for Diarrhoea, Dysentery, Bowel Complaint, Dyspepsia, Lowness of Spirits, Faintings, Sick Stomach, Headache, etc. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes. As an indisputable evidence of its medical proprieties, we append a few of the many certificates in our possession.

CUMBERLAND IRON WORKS, TENN., October 12th, 1869.
Jacob Scheetz, M. D.—Dear Sir: This is to certify that I have been having the chills for the last twelve months. I tried all medicines recommended to me for the disease, without receiving any benefit. Having heard Scheetz's Bitters highly spoken of, I procured a bottle, and finding some relief, I continued it until I am happy to say that I am completely well. I not only consider the Bitters a sovereign remedy for chills, but I believe, it a preventive, and cheerfully recommend it to the afflicted.
Yours very truly, MOLLIE HART.

PHILADELPHIA, February 17th, 1868.
Dear Sir: This is to certify that I have been intimately acquainted with Scheetz's Celebrated Bitter Cordial for the past four years, and have seen its effects in Dyspepsia, Nervous Diseases, Rheumatism, and all the various forms of general debility tending to decline, and from my knowledge of said bitters, I have no hesitation in pronouncing them the best general remedy for the above diseases that is known. You may use this in any way you desire.

ROSADALIS.

R O S A D A L I S

The Great American Health Restorer, purifies the blood and cures Scrofula, Syphilis, Skin Diseases, Rheumatism, Diseases of Women, and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens.

Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadalis Guide to Health Book, or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore, says:

I take pleasure in recommending your Rosadalis as a powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of Scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a cleaner of the Blood I know no better remedy.

Samuel G. McFadden, Murfreesboro, Tenn., says:

I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio, writes I have suffered for twenty years with an inveterate eruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by all Druggists.
